Safety instruction
1. Check that the power supply voltage corresponds to that shown on the appliance.
2. Do not place the appliance near the hot source or in a hot oven, as serious damage could result.
4. Appliances can be used by persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance.
5. This appliance can be used by children aged from 8 years and above if they have been given supervision or instruction concerning use of the appliance in a safe way and if they understand the hazards involved. Children shall not play with the appliance.
6. Cleaning and user maintenance shall not be made by children unless they are older than 8 and supervised. Keep the appliance and its cord out of reach of
children aged less than 8 years.
6. Do not use the appliance if the appliance or the cord is damaged, or the appliance has fallen or shows visible damage or does not work properly.
7. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
8. Burns can occur by touching the hot surface of the appliance, the hot water, the steam or the food.
9. Never immerse the appliance in water!
10. Do not move the appliance when it is full of liquid or hot foods.
11. Do not touch the appliance when it is steaming and use oven gloves to remove the lid, rice bowl and steamer baskets.
12. Always unplug the appliance immediately after use, when moving it or prior to any cleaning or maintenance.
13. This appliance is intended to be used in household and similar applications such as:
   - staff kitchen areas in shops, offices and other working environments;
   - farm houses;
   - by clients in hotels, motels and other residential type environments;
   - bed and breakfast type environments.

Instruction for use
1. Using warm water and dishwashing up liquid, wash all the removable parts and the inside of the water tank, rinse and dry.
2. Place the base unit on a stable surface, put the turbo ring around the heating element (the largest side on the bottom).
3. Pour the fresh water directly into the water tank up to the maximum level.
4. The baskets have the bases which can be removed to obtain a larger cooking space or cook the larger food.
5. Place the base into the baskets and put the food on the center of base.
6. Place the baskets on the top of the juice collector, and put the lid on.
7. Plug in and set the time for recommended cooking times (see table of cooking times). When the indicator light is on, steam cooking has begun.
8. Check the water level by looking the exterior water level indicator, if necessary, add water from the side of juice collector during cooking.
9. The steamer switches off automatically as the timer rings and the indicator light goes off.
10. You can reheat the food, carefully if there is any more water.
11. Remove the lid, place the basket(s) on the plate.
12. Unplug the appliance, let it cool completely before cleaning.
**Cleaning and maintenance**

1. Empty the water tank and clean it with a damp cloth.
2. All the other removable parts can be put in the dishwasher.
3. Descale the appliance every 8 times.
4. Position the turbo ring upside down around the heating element (the largest side on the upper). Fill the water tank with cold water up to “MAX” level, fill the inside of the turbo ring with white vinegar to the same level. Do not heat up (to avoid the descaling odour). Leave overnight to descale. Rinse out the inside of water tank with warm water several times.
5. Stack the baskets one to the other following No.1 into No.2, then together into No.3. Put the rice bowl into the Steamer basket No.1. Lastly, place the baskets on the juice collector and put lid over them all.
