INSTRUCTIONS

PRELIMINARY CHECKS:
1. After removing the packaging, make sure the product is complete and undamaged and that all accessories are present. Do not use the appliance if it is visibly damaged. Contact with the technical assistance service.
2. Connecting the appliance:
   a. Check that the power supply voltage corresponds to the value indicated on the rating label.
3. If the power socket does not match the plug on the appliance, have the socket replaced with a suitable type, or change the plug by a qualified professional.

USING THE APPLIANCE
1. Place the appliance on a flat surface.
2. Turn the container lid in an anti-clockwise direction and lift it.
3. Pour the desired amount of coffee beans into the container.
4. Tighten the lid by turning it fully home in a clockwise direction. A safety device prevents switch-on if the lid is not well inserted.
5. Do not attempt operation without the cover being in place.
6. Extract the necessary amount of wire and introduce the plug into the socket.
7. Press the lid to activate the coffee grinder and hold it down until the desired level of grinding is obtained.
8. Unplug the unit, have a container ready to hold your ground coffee.

RECOMMENDATIONS FOR USE
1. Always keep the lid of bean container closed hermetically in order to preserve the flavor and the aroma of the coffee beans.
2. Only grind the amount of coffee necessary at the time.
3. Never overfill the bean container.

As per general indications, consider one tablespoon of beans per cup (e.g. 4 spoons of coffee beans for 4 cups). Naturally, optimal amounts, defined on the basis of personal taste, will be identified with time.
